FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the Secretary of State** assume that statewide newspaper publication of state statutes cost approximately \$1,228 per column inch based on an estimate provided by the Missouri Press Service. Since three printings are required, the cost is $\$1,228 \times 3 = \$3,684$ per column inch. The estimated total number of inches for this amendment is 10 inches including title header and certification paragraph, therefore the total estimated publication cost is $\$3,684 \times 10 \text{ inches} = \$36,840$. The proposal will be on the ballot at the 2004 general election.

Officials from the **Department of Natural Resources (DNR)**, the **Department of Conservation (MDC)**, and the **Department of Agriculture (AGR)** assumed, in response to similar proposals, that this proposal would have no direct impact on their organizations.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

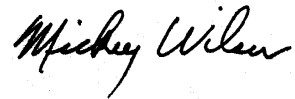

This proposal would submit to the voters of the state a constitutional amendment requiring a two-thirds majority vote for approval of initiatives relating to the opportunity to harvest fish, wildlife or forestry resources, except for initiatives concerning amending or repeal of the Conservation Sales Tax.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space. The proposal would not affect Total State Revenues.
